

LOCK HASP & COMBO PADLOCK PLACEMENT INSTRUCTIONS

Go to the property

- Take a photo of the entry door, specifically the area the needs a lock hasp (see photo below), you will use this photo at the hardware store to help you select the proper type of lock hasp to purchase.

Go to nearest hardware store

- Purchase 1 lock hasp

(NOTE: The size and type of lock hasp must accommodate the entry door properly. Not all lock hasps can be installed properly depending on the door setup. Use the photo you took of the door to determine which lock hasp is best.)

- Purchase 1 combination padlock

(An ABUS combination padlock with 4 numbers is preferred. Do NOT use padlocks that require keys.)

Go back to the property

- Install lock hasp securely to door with power drill

Place combination padlock

- Set Combination Padlock code to **1129**
 - Place padlock on the lock hasp.
 - Lock padlock and rotate combination to lock it.

Communicate

- Before leaving the property, email Alex Everest (alex@dealmakerlibrary.com) to confirm the combo and location of the padlock.
